

Wave propagation in a model artery: data and figures

This repository contains the data and the Julia scripts to reproduce the figures in:

P. Chantelot, A. Delory, C. Prada, and F. Lemoult, Wave propagation in a model artery, *ArXiv:xx* (2025).

Tip

Install the following packages to plot the figures: `CairoMakie`, `ColorSchemes`, `LaTeXStrings`, `MathTeXEngine`, `FileIO`, `UnPack`, and `NaturalSort`. Deflection calculations require additional packages.
